Core Models

Model

Fields

Language

id, code, name, script, speechLocale, isAvailable

LanguagePair

id, learningLanguageCode, nativeLanguageCode, label

Lesson

id, languageCode, lessonCode, level, topicNumber, lessonNumber, orderIndex, title, shortDescription, overviewPoints, goal, group, slug, status, hskLevel or jlptLevel

Lesson Content

Item

Fields

VocabItem

id, lessonCode, code, orderIndex, scriptText, readingText, romanization, meaning, expectedScriptText, expectedReadingText, exampleScriptText, exampleReadingText, exampleMeaning, sourceRef, sourceConfidence, needsReview

SentenceItem

id, lessonCode, code, orderIndex, scriptText, readingText, romanization, meaning, expectedScriptText, expectedReadingText, sourceRef, sourceConfidence, needsReview

GrammarItem

id, lessonCode, code, orderIndex, text

TopicItem

id, lessonCode, orderIndex, title, description

For Chinese legacy files, map hanzi -> scriptText, pinyin -> romanization, english -> meaning.

For Japanese, use existing scriptText, readingText, romanization, meaning.

Tutor / Guided Lesson / Micro Lesson

Model

Fields

GuidedLesson

id, lessonCode, lessonId, sourceLessonId, topicId, title, description, version, contentVersion, estimatedDurationSeconds, segmentCount

GuidedSegment

id, guidedLessonId, orderIndex, contentCode, cardCode, type, section, audioFile, tutorText, promptsUserSpeech, expectedPhrase, source, transcriptCues

GuidedCard

id, segmentId, code, scriptText, readingText, romanization, meaning, style, microVariant, eyebrow, title, subtitle, imageKey, bullets, focus, pronunciationFocus, recapItems

InfoCard

id, segmentId, kind, title, body, takeaway, pattern, note

InfoCardBreakdown

id, infoCardId, orderIndex, text, readingText, romanization, meaning

InfoCardExample

id, infoCardId, orderIndex, scriptText, readingText, romanization, english, note

Current manifest has title, but no top-level description; add it if the editor needs tutor description editing.

Drill / Extra Drill

Model

Fields

DrillSet

id, lessonCode, mode, title, description, orderIndex

DrillItem

id, drillSetId, lessonCode, mode, section, step, round, drillType, appKind, cardType, scriptText, readingText, romanization, meaning, expectedScriptText, expectedReadingText, answer, answerOrNote, sourceCodes

FillBlankConfig

drillItemId, promptBefore, promptAfter, answer, choices

TtsConfig

drillItemId, ttsProvider, ttsLanguage, ttsText

Current drillType values found:

listen_repeat, tap_to_speak, fill_blank, concept_review.

Feature mapping:

Feature

Model

Speaking practice

DrillItem with drillType = listen_repeat or tap_to_speak

Fill in blank

DrillItem + FillBlankConfig

Sắp xếp sentence

not present in current generated files. Add drillType = sentence_order, fields tokens, correctOrder, sourceCodes

Translate from native language

not explicit in current generated files. Add drillType = translate_from_native, fields promptNativeText, expectedScriptText, choices?

Current generated data has no separate title/description for drill sets, only item rows. Add DrillSet if the admin UI needs "Sửa title, description".

Roleplay

Model

Fields

Roleplay

id, lessonCode, level, lessonNumber, topicNumber, lessonTitle, title, setup, notes, sourceCodes

RoleplayGoal

id, roleplayId, orderIndex, title, descriptionEn, descriptionNative, successCriteria

For Chinese generated roleplays, map:

roleplayTitle -> title, tasks[] -> simple goals, practiceTasks[] -> RoleplayGoal.

Vietnamese Localization

Model

Fields

LocalizedLessonOverlay

id, nativeLanguage, learningLanguage, lessonCode, guidedLessonId, title, goal

LocalizedContentOverlay

overlayId, itemType, itemCode, meaning, exampleMeaning, text

LocalizedGuidedSegmentOverlay

overlayId, segmentId, tutorText, captionBySourceText, cardMeaning, promptEnglish, tipText

LocalizedInfoCardOverlay

segmentOverlayId, title, takeaway, pattern, note, breakdownMeanings, exampleEnglish

LocalizedDrillOverlay

overlayId, drillId, scriptTextKey, meaning, promptEnglish, tipText
